-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This application contains claims directed to the following patentably distinct species:

First species described beginning on page 11, line 8 of the specification

Second species described beginning on page 30, line 2 of the specification

Third species described beginning on page 33, line 27 of the specification

Fourth species described beginning on page 36, line 11 of the specification

Fifth species described beginning on page 60, line 7 of the specification

Sixth species described beginning on page 65, line 8 of the specification

Seventh species described beginning on page 69, line 22 of the specification and an in-determinant number of additional species described beginning on page 71, line 27 of the specification.

The species are independent or distinct because they have mutually exclusive characteristics that require different searches that are burdensome in the limited time the PTO allots for examination.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears to be generic, but the examiner is unsure and has not undertaken an exhaustive analysis.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless

Art Unit: 3753

accompanied by an election. In the event one of the in-determinant number of additional species described beginning on page 71, line 27 of the specification is elected, applicant is required to provide a proposed drawing correction illustrating it in response to this office action to facilitate examination.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Any inquiry concerning this communication should be directed to John K. Ford at telephone number 571-272-4911.
